SUMMARY

I am a Mobile Tech Lead with 6 years of experience working with Flutter. I started as an Android and iOS developer and have touched almost everything from the mobile development process. Currently, I am responsible for the development of a rather significant in size application, leading a team of 5 developers and paying huge attention to the code quality.

EDUCATION

Bachelor of Engineering in Computer Science (EN)

Warsaw University of Technology
Sep 2016 - Feb 2020 (Graduated)

WORK EXPERIENCE

Mobile Tech Lead

Futurehome, Oslo
Apr 2020 - May 2024

Technologies: the ones mentioned in the left section + countless others

I started as a regular flutter developer adding native widgets to both mobile platforms. Overtime I have found my passion in architecture and decided to follow it. Now I am responsible for the development of the biggest mobile application in the company. I have developed a big set of dart packages handling everything from simple utils to very complicated - extended and touching numerous technologies, business logic. I have active role in recruiting process, and lead a team of 5 mobile developers. I take active role in planning, and execution, of new features in the system - communicate with product people, designers, testers, other internal leads, external developers and our architect. I have produced CI tools, and manage the release process.

Mobile Developer

Beside The Park, Warsaw
Apr 2018 - Oct 2018

Technologies: iOS, Android, Objective-C, Java, Kiwi, Mockito

My responsibilities:

1. Adding new features into iOS and Android SDKs
2. Testing
3. Additional debugging and fixing
4. Writing documentation
5. Communication with clients
