Release management
[Google Play, App Store, Firebase
App Distribution, Fastlane, Github
Actions]

Communication
[MQTT, REST, gRPC, GraphQL,
Bluetooth]

AI-supported work

genixpl.github.io

SUMMARY

Mobile developer with 6+ years of commercial Flutter experience. Having worked on large-scale projects, I place a strong emphasis on quality and scalability. I can handle the full SDLC—from supporting business and design to implementation and deployment. Direct and autonomous, I take my responsibilities seriously to deliver fast, maintainable results using an AI-assisted approach. I am looking for some flexibility so I can stay on top of technology trends.

WORK EXPERIENCE

Senior App Developer

Coop Norge, Oslo
Jun 2024 - Jan 2026

I worked on the biggest Norwegian retail app. My key contributions:

- standardised code structures;
- refactored the payment system;
- overhauled the dependency management;
- introduced a strong testing culture;

Technologies: Flutter, Android, iOS, Dart, Kotlin, Swift, REST, gRPC, Fastlane, Github Actions, Aera SDK

Mobile Tech Lead

Futurehome, Oslo
Apr 2020 - May 2024

I worked on a scale-up smart home app. My key contributions:

- built core features, including native widgets and an Apple Watch companion app;
- architected and transitioned the codebase to MVVM for better scalability;
- ensured overall quality of the code;
- developed internal Dart packages shared across multiple projects;
- worked closely with designers and business;
- automated the workflow by setting up and maintaining CI/CD pipelines;
- co-managed and grew the team;

Technologies: Flutter, Android, iOS, watchOS, Native Home Widgets, Dart, Kotlin, Swift, Mqtt, Bluetooth, gRPC, REST, Fastlane, GitHub Actions

Mobile Developer

Beside The Park, Warsaw
Apr 2018 - Oct 2018

I worked on a tracking SDK for a UK-based client. My key contributions:

- built new features for both iOS and Android SDKs;
- handled unit and field testing;
- maintained the codebase;
- wrote the documentation;
- communicated with the client;

Technologies: iOS, Android, Objective-C, Java

EDUCATION

Bachelor of Engineering in Computer Science (EN)

Warsaw University of Technology
Sep 2016 - Feb 2020
